

# New Earth Overpopulation Problems

- Overpopulation estimation for each nation is based on its **sustainable and equitable population index**

## Overshoot Index:

<https://docslib.org/doc/4554435/overshoot-index-2016-v2>

Set the same eco footprint across all nations, such as 3.4 for the upper-middle income or China's, each nation's sustainable and equitable population = its eco footprint / 3.4 x its sustain population. The ideal population of India/China/the US would be 170/392/350 million

- Bad consequences of overpopulation

Poverty, scarcity, robberies, crimes, wars, corruption, inequality, pollution, climate change, invasive species, diseases, plagues, etc.

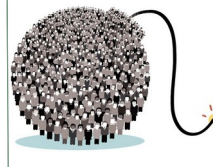

- Overpopulation and poverty cycles

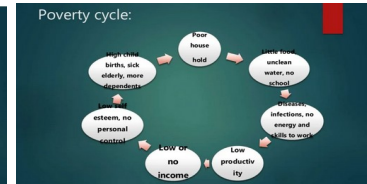

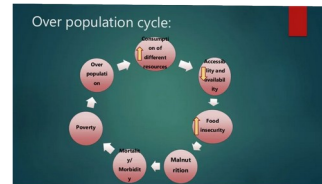

- Bad quality people

Criminals, overpopulated, super greedy/needy, terminal ill, disabled, retarded, very old, very poor, very lazy, etc.

- Ideal/target global population: 2.5 billion people

## Exit Opportunities – Real Death = Real Freedom

**Kill witches/robots/zombies of all kinds or excessively greedy people/businesses.** We may set up suicide booth/services across overpopulated/developing nations/regions, hospitals, senior communities, poor people communities, prisons, international airports, US-Mexico border, people of color communities, etc. Policies to restore our world into a healthy living one:

- 1. Zombie/super greedy Indian/Chinese/Russian/richest leaders/businesses:** jail/kill them, going private, \$1B- wealth limit, assisted closure, social democracy
- 2. Big government spendings:** Kill all before the national debt is significantly reduced. The poor/rich shall both work/contribute like others in a fairer/better society. Ban modern slavery of the Democratic Party
- 3. Immigrants from overpopulated/very poor nations, illegal immigrants, criminal aliens, migrants, dreamers:** Strict immigration control, secure border, deportation, jail, assisted suicides, coupled with overpopulation treatment and better economies globally
- 4. Overpopulation:** Execute global planned parenthood and ban births, and maximize legitimate deaths or suicides based on sustainable equitable and quality population evaluation
- 5. People of color complaining about racism:** Ban births for people of color generally with more defections by design, raise white kids when allowed
- 6. Poor people living on government welfare or medical care/aid:** Require them to work for a living, assisted suicides
- 7. Retired or old people:** Reduce/cut their pensions/benefits reaching/beyond certain ages, work for a living, assisted suicides

## Exit Opportunities – Real Death = Real Freedom

9. People born/tortured with serious diseases/pains/disability or who can't afford medical expenses: assisted suicides

10. Serious or long time prisoners: assisted suicides, death penalties

11. The richest/richer people/businesses: going private, social democracy, wealth limits, resource sharing, help others constructively intelligently, assisted closures for dead or corrupt businesses

12. People with opportunities while unhappy to live: assisted suicides

13. People seeking deaths to help planet/others: assisted paid suicides

14. People not allowed to have kids: help/adopt others when capable

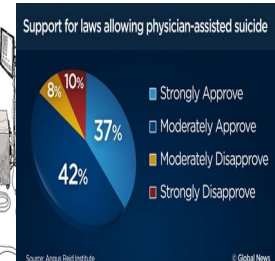

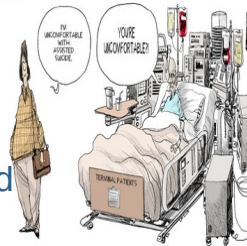

In addition, we may create the **Death Wish Businesses and franchises** where people committing suicides are given an opportunity to satisfy their wishes before death. They may wear unremovable rugged devices that kill them once their death wishes are fulfilled or a time frame threshold is reached.

**Death wishes** - A taste of desired life. Consumptions/experiences of all kinds such as direct compensation, food, love, travel, luxury lives, real/VR experiences, entertainment, raising kids/animals, parties/reunions with families/relatives/friends, settling kid's issues, etc. Relevant business partnerships to minimize costs and achieve the best experiences.
